This is a **Micro Multi** cache.

This cache uses a substitution scheme to build clues for the final location. Below are three coordinates leading to some signs. The numbers below the blanks represent the sign and the position of the letter, number or symbol that goes in the blank. Count their position and fill in the blank(s). Once you have filled in all of them, divide the letter string into words describing the item. The final coordinates will be discerned in the same manner. The difficulty rating of 2 stars reflects the necessity to count all letters, numbers and symbols very carefully. **Bring your own pen or pencil to sign the logbook.**

Please re-hide the cache carefully so the next geocacher will have the same experience you did. If you are the first finder, bring the First Finder Card to Mr. Workman for a special prize!
