

LOCKED ON!
by jmike

N 40° 42.571 W 105° 00.060 (WGS84)
UTM:

In Colorado, United States
Hidden: 2/15/05
Use waypoint: EYGC05

This is a **Micro** cache.

(ratings out of 5 stars. 1 is easiest, 5 is hardest)

Difficulty: ★★ Terrain: ★

This is a micro container where it may be difficult to find the cache or access the log book unless you do a good job on the first part of the hunt.

The coordinates above lead you to a sign which will be used with the directions below to decode the final solutions.

Logbook Location:

From the North coordinate, substitute the letter position of "P" in the second word found on the sign for the one thousandths position of a new number and subtract it from the N coord. (Example: If the sign reads "KEEP RIGHT" the letter position of "T" in the second word is 5).

N =

To the West coordinate, substitute the letter position of "E" in the third word found on the sign for the one hundredths position, substitute the letter position of "E" in the second word found on the sign for the one thousandths position to create a new number to be added to the W coord.

W =

Accessing the Logbook:

Use the sign found at N 40 42.571 W 105 00.060 to solve this section.

The number of letters in the third word _____

The number of times the letter "T" is used in the sign _____

The number of three-letter words used in the sign _____

Use the answers in the order above to access the logbook. It is essential that you put the cache back exactly the same way you found it. You will have to go through the same three steps above to replace the log securely. Use caution when working with this cache so that people in the area do not notice what you are doing as it is in a high traffic area.
