

# ELECTRIFIED!

by jmike

**N 40° 42.614 W 105° 00.135 (WGS84)**  
UTM:

In Colorado, United States  
Hidden: 2/15/05  
Use waypoint: EYGC07

This is a **Micro** cache.

(ratings out of 5 stars. 1 is easiest, 5 is hardest)

Difficulty: ★ Terrain: ★

This is a micro cache that for some will appear to be well hidden. It is in a high traffic area so be discrete as you look for, find, and replace the cache. There will be many Mugglers around here so you will have to be extra careful as you look for this cache. When you find it, quickly move to another area to sign the logbook to minimize anyone seeing you access the cache. Check for Mugglers and be quick when your replace the logbook. Put it back carefully so that the next cacher can have as much fun finding it as you did. If you get the First Finder card, bring it to jmike for a special treat.

Bring your own pen or pencil to sign the logbook.

Cache is a fake electrical box on a light pole near the bike racks.
