Educational Excellence in a Kind, Loving Environment

April 27, 2011

Dear Eyestone Parents,

We need your feedback!

Last week, we had our first ever whole-school music program, with three performances.

As this is something entirely new to us, we're sure that there are things that can be changed or improved so that this can be a special and workable night for all involved. We have already begun evaluating the program as a staff and have generated ideas that should move us much closer to our vision. However, we would very much like to gather input from our whole community to ensure that we haven't missed anything and to hear your thoughtful and creative ideas!

Please look in today's Thursday Folder for the survey (one per family, sent home with youngest-and-only students), complete, and return to your child's teacher by next Friday, May 6. Thanks again in advance for your thoughts and for your support as we implement this new concept.

Sincerely,

David Sobson
Eyestone Principal
