Educational Excellence in a Kind, Loving Environment

September 30, 2010

Dear Eyestone Parents,

Believe it or not, we have reached the very end of the month of September! October will bring ECO Week for our 5th graders, parent conferences, and possibly a day or two below 85 degrees!

Parent/Teacher Conferences: Conferences will be held at Eyestone on Wednesday (evening) and Thursday (day), October 13-14. A form for requesting specific days and times is accompanying this letter in your child's Thursday Folder today. Please be sure to fill out and return a separate form for each of your children (if you have more than one) and list the appropriate siblings on each form. This information allows us to accommodate families by scheduling sibling conferences back-to-back – or something close to this – whenever possible.

Please return slips to school by Monday, October 4. Once teachers set conference schedules, you will receive a confirmation slip in your child's Thursday Folder on Thursday, October 7. If your child's teacher or grade level is running a different conference schedule due to ECO Week (5th grade) or other contingencies, you should be getting (or have already received) communication from the teacher about this. (Just a reminder: kindergarten teachers conducted conferences with parents before the start of the school year, so you will not have a slip in your child's folder.)

Composting Video Clip: The composting/recycling program in the lunchroom has been a big success, and the kids are doing a phenomenal job taking on this responsibility. The district's Channel 10 team was out to Eyestone for a day to film the assembly, the process in the lunchroom, and interview some students about the program. The video clip they produced is now posted on the district website and can be accessed directly through this link/address:

<http://bit.ly/95YdRZ>

Eyestone is the first elementary school in the district to implement this program offered through a partnership with PSD and Gallegos Sanitation. As we move through the year, we'll share our results periodically. Many thanks to all the parent volunteers who have been working to support the success of this program!

Thanks!

David Sobson
