If I type with quick, snappy strokes my speed  
10 11 12 13 14 15 16 17 18 19  
will increase. But, I must also pay attention to my  
20 21 22 23 24 25  
errors and control mistakes.

Zero errors is my goal. I wait until I am through  
11 12 13 14 15 16 17 18 19 20 21  
with the writing to fix my errors. My rate of speed  
22 23 24 25 26 27 28 29 30  
is high. I do extra drills just to improve.
